Section 2.0 Compliance With Conservation Plan

Please provide answers to the questions below, which outline how the components of the water system's conservation plan have been implemented. Attach extra sheets as needed.

Section 2.1 Use the tables on the back of this form to enter quarterly meter readings and estimated unaccounted for water. (If applicable.)

Section 2.2 Explain how the leak detection and water audit program was performed and provide the dates when this task was carried out.

Section 2.3 Explain how pressure reduction was achieved. (If applicable.)

Section 2.4 Document usage rates. (If applicable.)

Section 2.5 Document the dates and types of materials mailed for the educational outreach program.

Section 2.6 If this facility is an industrial/commercial/institutional water user, please also include a description of retrofits and/or system modifications implemented to reduce and conserve water use at this facility for each year tracked on this form.
